St. Barbara

Innovative combinations of mixed media with stained glass

Fine artist Cynthia Jacobs wanted to give Catholic Saints their own stained glass windows on the wall. This project displays their guardianships using found items and crafts mixed with one of her true passions, stained glass.

These 6 pieces average 30" x 40" and have support structures built in to support their size.

"I really enjoyed collecting and crafting all the backgrounds for my visions for each Saint's stained glass window on the wall. St. Fiacre is the patron saint of gardeners, St. Nicolas of sailors, and Barbara of architects, they all play a role in our lives."
